ABOUT ME

Hands-on software engineer, product builder, and AI orchestrator combining technical execution, visionary product thinking, agency experience, and sales leadership to turn ideas into scalable digital products and measurable growth.

LANGUAGE

Turkish - Native

English - C2 Level, Certified

German - A2

EDUCATION

2024 - 2026

MSc - Information Technology Management

Berlin School of Business and Innovation

WORK EXPERIENCE

02.2026 - Current
Berlin - Germany

AI Engineer - Full-Stack Developer

WGroup GMBH - (wgrouppgmbh.eu)

Designed and developed scalable web platforms, streaming infrastructures, and gamer-centric social media experiences from scratch using Next.js / React / Supabase / Prisma / Better-Auth / GSAP, while integrating AI-driven automation pipelines with ElevenLabs, Kling AI, Seedance, and related AI tooling.

2026
Remote

Blockchain & Full-Stack Developer

Arclore NFT Marketplace - Arc Chain (arclore.xyz)

Built a fully functional NFT marketplace with Next.js / React / Hono / Solidity / Wagmi / Viem / Alchemy
Translated designs into functional, accessible, and responsive front-end components.

03.2025 - 07.2025
Remote - Turkey

Blockchain & Full-Stack Developer

Triffle Raffle Marketplace - Base Chain (triffle.xyz)

Built a fully functional Raffle system for B2B clients with Next.js / React / Solidity / Wagmi / Viem / Chainstack / Alchemy / MongoDB

2025 - On Hold (no active development)
Remote

Lead Developer

OnChainWin Raffle Platform (onchainwin.com)

Developed and deployed 5+ types of smart contracts using Solidity, including token standards (ERC-20, ERC-721), staking logic, and role-based access control. Integrated smart contracts into front-end applications using Wagmi, Viem, and Ethers.js, ensuring seamless blockchain interactions and optimal gas usage. Developed complete front-end systems integrated with RPC endpoints (Infura, Chainstack) to manage blockchain connectivity, reliability, and performance.

11.2024 - 03.2025
London - United Kingdom

Front-End Developer

Sincapp Mobi & Agency,|| London (sincapptech.com)

Built a fully functional social media for a client using Next.js, Convex, and Clerk, with data sync, authentication, and scalable architecture
Translated UI/UX designs from Figma into functional, accessible, and responsive front-end components. I wrote the front end of a mobile and a website project.

2023 - 2026 (Project based)
Berlin | İzmir

Front-End & Blockchain Developer

Clodron Agency,|| Berlin - İzmir (clodron.com)

Built 50+ production-level projects, demonstrating expertise in modern frameworks and agile workflows.

02.2023 – 08.2024
İzmir – Turkey

Front-End & Blockchain Developer

Activat8 Earth

Coded their platform, Solidity contract and front-end design

08.2023 – 03.2024
İzmir – Turkey

Sales Manager

GoMining BVI Limited (gomining.com).

Managed the end-to-end sales operations and lead funnel across Turkey, overseeing acquisition, conversion, and retention strategies.
Built scalable user acquisition pipelines using performance marketing, CRM systems, and targeted outreach strategies.
Succeed some awareness of mining in Turkey

06.2022 – 06.2023
İzmir – İstanbul /
Turkey

Data Analyst & Expert (Campaign Management)

AgeSA Pension and Life Insurance

Led regional customer engagement campaigns with a reach of 4M+, leveraging data-driven insights to maximize impact and retention
I managed government process for campaigns.
Employed IBM SPSS for data mining and segmentation to inform campaign targeting and performance analysis.

01.2019 – 06.2022
İzmir – Turkey

Financial Advisor / Savings and Insurance Consultant

AgeSA Pension and Life Insurance

Managed a diverse portfolio of high-value customers, focusing on retention, upselling, and satisfaction strategies.
Consulted clients on investment products and successfully sold tailored financial packages to meet their long-term goals.
I became the first in Türkiye in a certain sales area and won various campaigns and promotions.

2016 – 2017
İzmir – Turkey

Project Manager (Supplier Sales)

Alin's & Zihni Sinir

Provided executive support to the General Manager in daily operations and strategic initiatives.
Oversaw end-to-end business processes to improve workflow and team collaboration.
Developed and optimized sales pipelines, enhancing lead flow and improving conversion rates.

01.2010 – 2016
İzmir – Turkey

Operational Manager Assistant

İlaş İlaçlama LTD. ŞTİ.

Contributed to and actively participated in field sales operations, driving lead generation and client engagement.
Managed daily schedules for clients, ensuring timely appointments, follow-ups, and exceptional customer service.
Engaged in real-time sales with customers
I gained hands-on experience in direct field sales, engaging with clients face-to-face.
